

Descendants of George Henry Barrier and Sarah Matilda Wise

I was asked to construct a family tree chart for this reunion, and at first I thought I could make a regular one with lines and boxes. However, I soon discovered that if I went to 6 generations, the chart would run to 2092 pages! If I went to 4 generations, the chart would be 8.5 inches wide and almost 40 feet long! So I am using the number system, which is not as clear but is much more concise.

This is the number system: 1—indicates original ancestors of this line, George H. Barrier and Sarah Matilda Wise. + indicates a spouse. If a person re-married, the second (or third) is further down in line. 2—indicates a child of George and Sarah. There were 11. These are highlighted in gray so that descendants can more easily be found. 3—a child of 2nd generation. 4—a child of the 3rd generation. 5—a child of the 4th generation. 6—a child of the 5th generation. 7--6th generation.

NOTE: This genealogy does not pretend to be complete. Some entries have not been updated in 2 or 3 years. Hopefully it is accurate. The information comes from Betty Barrier Propst's work over the past 10 or so years (from family Bibles, interviews, and help from relatives and friends). It is augmented by family trees from ancestry.com (at least 9 dealing with Barriers from this line) and Internet research.

Please let me know of errors and omissions! If you have information that we could use, email me at bbarrier@yahoo.com or write to Bob Barrier, 2365 Brownstone Court, Marietta, GA 30062. I have set up a Jonas Ridge Reunion page on Facebook but there is not much on it. Now that the Jonas Ridge School Reunion has been stopped (for the time being at least), let's try to keep and remember as much of our history as we can through other ways.
